BODY COMPASS

Eat to feel alive.

bodycompass.app

BIG RESET

For maximum results & clarity when you need a fast turnaround

1. **STRICT 30 DAYS:** Eat only from the GREEN ZONE.
2. **CHECK BASELINE:** Note your new energy & clarity.
3. **REINTRODUCE:** Test YELLOW ZONE foods one by one.

Every symptom is a signal.

Stop being a Passenger.
Become the Pilot.

CONTINUOUS IMPROVEMENT

For sustainable progress & building lifelong awareness

1. **CUT ALL RED:** Eliminate Red Zone foods — your permanent baseline.
2. **TRACK YELLOW:** Log Yellow foods + symptoms daily; connect the dots.
3. **UPGRADE GRADUALLY:** If symptoms persist, remove Yellow foods top-down; swap for Green.

Foods

HARMFUL

FOODS TO ELIMINATE

Processed/Packaged Foods
chips, cookies, crackers, cereals, soda

Refined Sugars
table sugar, HFCS, agave syrup, corn syrup

Industrial Fats & Oils
canola, soybean, sunflower, corn, safflower; margarine, shortening — hexane-extracted, hydrogenated, or partially-hydrogenated

Non-Organic / Industrial Grains
conventional wheat, rye, barley, corn, oats; refined products (white bread, pasta, pastries) — glyphosate-sprayed commodity crops

Conventional Animal Products
factory-farmed meat, dairy

Processed / Cured Meats
bacon, hot dogs, ham, salami, sausages — IARC Group 1 carcinogen

Artificial Sweeteners
aspartame, sucralose, saccharin — zero nutrient value; sucralose shows genotoxicity

Non-Organic Alcohol
conventional wine, beer, spirits

HARMFUL PROCESSING

- **Refined** — strips nutrients, spikes blood sugar
- **Deep-fried** — oxidizes oils, creates free radicals
- **Smoked** — adds carcinogens (PAHs)
- **Cured / Aged** — increases histamine load
- **Fermented** — increases histamine

HARMFUL SOURCING

- **Factory-farmed** meat, dairy, eggs
- **Farmed fish** (esp. salmon)
- **High-mercury fish** — large predators: tuna, swordfish, king mackerel, shark
- **Conventional produce** on thin-skinned, leafy, or soft-skinned fruits & veg

TEST

ELIMINATE FIRST *(Least Tolerable)*

Path 1: *Re-introduce from bottom to top*
Path 2: *Eliminate from top to bottom*

Order follows clinical AIP/IFM convention. Your personal tolerance will vary — test one food at a time.

Legumes & Peanuts
*e.g., lentils, beans, chickpeas, soy; **peanuts** especially — aflatoxin risk, widely excluded*

Organic Grains
e.g., rice, oats, quinoa, millet, buckwheat; also organic spelt/einkorn if gluten-tolerant

High-Quality Dairy
e.g., butter, raw cheese, A2 milk, yogurt

Clean Alcohol (in strict moderation)
e.g., organic wine, clean spirits — note: ethanol is IARC Group 1; safest dose is none

Nightshades
e.g., tomatoes, potatoes, peppers, eggplant

Concentrated Sweeteners (in moderation)
e.g., raw honey, maple syrup, dates, stevia, monk fruit

Histamine-Liberating & Higher-Sugar Fruits
e.g., strawberries, citrus, mango, pineapple, ripe banana, dried fruits

FODMAP-Sensitive Produce
e.g., garlic, onion, apple, mushrooms (>75g), high-dose brassicas

Fermented Foods (histamine)
e.g., sauerkraut, kimchi, kombucha, vinegar

Eggs
e.g., whole eggs — pasture-raised preferred for superior nutritional profile (omega-3, vitamin D, carotenoids)

Nuts & Seeds
e.g., almonds, walnuts, cashews, chia, flax

Shellfish
e.g., shrimp, crab, lobster, mussels

Seed-based Spices
e.g., cumin, coriander, fennel

RE-INTRODUCE FIRST *(Most Tolerable)*

HEALING

FOODS TO ENJOY

Quality Proteins
grass-fed beef, liver & organ meats, wild salmon, sardines, anchovies, pasture-raised chicken, bone broth

Healthy Fats & Oils
avocado, extra virgin olive oil, coconut oil, ghee, tallow

Vegetables (organic & well-washed)
leafy greens, zucchini, squash; broccoli/cauliflower (moderate portions); carrots, parsnips, beets

Fruits
low-sugar: blueberries, raspberries, blackberries

low-risk: avocado, olives, lemon, green (unripe) bananas

Herbs & Spices
turmeric, ginger, cinnamon, black pepper, fresh herbs, sea salt

Hydrating Beverages
filtered water, mineral water, herbal teas, coconut water, lemon water

HEALING PROCESSING

- **Sprouted** — reduces phytates 37-81%
- **Soaked** — reduces anti-nutrients
- **Washed** — removes surface contaminants
- **Cold-pressed** — preserves bioactives
- **Fermented** — increases bioavailability & absorption

HEALING SOURCING

- **Organic** for leafy greens, berries, thin-skinned fruit, peppers
- **Grass-fed, pasture-raised** meat, dairy, eggs
- **Wild-caught** fish (never farmed)
- **Conventional OK** for avocado, coconut, banana, peeled root veg

Signals

	IMMEDIATE 0-6 Hours	DELAYED 6-72 Hours	CHRONIC Weeks+
Digestion	**Bloating**, **heartburn/reflux**, nausea, stomach cramps	**Diarrhea**, **constipation**, food 'sitting heavy'	**IBS**, leaky gut, chronic bloating
Energy	**Fatigue after eating**, **sugar crash**, jitteriness, rapid heartbeat	**Insomnia**, **morning fatigue**, difficulty waking, food cravings	**Chronic fatigue**, weight gain, frequent illness
Clarity	**Poor concentration**, **dizziness**, confusion, tension headache	**Brain fog**, **mood swings**, anxiety, migraine	**Depression**, poor memory, chronic headaches
Recovery	**Muscle cramps**, **stuffy nose**, shortness of breath, wheezing	**Joint aches**, **morning stiffness**, muscle soreness, congestion	**Arthritis**, chronic sinusitis, bone pain
Skin	**Hives/rashes**, **flushing**, itching, watery eyes	**Acne**, **eczema**, rosacea, dry skin	**Psoriasis**, dark circles under eyes, hair loss
